Ideation Phase
Emphathize & Discover

Date	26 October 2022
Team ID	PNT2022TMID29508
Project Name	Natural disasters intensity analysis and classification using Artificial Intelligence
Maximum Marks	4 Marks

GOALS

Major goal is to predict the natural disaster earlier and to reduce mortality and morbidity.

IMPLEMENTATION

Its very much Possible to Implement in all the time but mostly implemented in Emergency time.

Natural disaster analysis user

FACTORS

Crucial factors are prediction and detection.

APPLICABLE TO

This will be applicable to all kinds of natural diaster .

PAINS

*Natural disaster will not happen in every time:-

1. During cyclones it will predict the speed approximately but not accurately.
2. Due to human made error.

GAINS

*It will prevent many lives.

*Using this analysis more damage of properties can be prevented.
